

Zarion celebrates 10th anniversary with industry recognition

Dublin, Ireland, Monday 21st November 2005

Zarion, an emerging leader and innovator within the international market for a new generation of Banking and Insurance Process Management Software Solutions, celebrated it's 10th year in business by joining a small, select number of software companies to be short listed for the Irish Software Association's annual recognition awards.

Since it's inception in 1995 Zarion has enjoyed consistent year on year double-digit growth.

"Our objective is to significantly grow our established customer base into happy Banking and Insurance customers, realising significant benefit from and committed to exploiting Zarion's software solutions, as part of their core business operations" says Gerry O'Connor, CEO of Zarion. "We differentiate ourselves by combining specific Banking and Insurance process knowledge with a modular, flexible software capability and the ability to deliver quickly, reliably and at a lower cost of ownership over the lifetime our software solutions."

Over the past ten years Zarion has delivered solutions to a number of leading Banking and Insurance organisations including ING Bank, DEPFA bank, AIB Plc, FBD Insurance, GMAC corporation, Bank of Ireland and Capita Life & Pensions.
